

Make Your Escape

Whether you enjoy island-hopping for a few days, carving turns in big chop, slow cruising along a secluded cove, getting your adrenaline fix at the end of a tow rope or just kicking back catching some rays, you'll find your escape with the new 2018 Sea-Doo[®] lineup.

We started a revolution in watercraft with the introduction of Sea-Doo in 1968. Since then, we created the first three-seater, the first on-water brake, the world's most affordable watercraft with the Sea-Doo SPARK[®] and many other innovative products. Now, on our 50th anniversary, we're starting another revolution: Introducing the next-generation 2018 Sea-Doo models, re-defining the watercraft experience with our most innovative, stable and versatile platform ever, for the most epic adventures ever.

SPECIFICATIONS	37

Owning and riding a Sea-Doo is great fun. To make this a rewarding experience for everyone we trust riders to respect the community of sea sporters and people making a living by and at seas. Responsibility also means complying with national and local regulations as well as ecological values. As smart and responsible riders we hope that everyone pays attention to these principles.

Learn more about our commitments in seadoo.com

THE NEXT-GENERATION Sea-Doo

The all-new Sea-Doo models are built on a new platform that is built for adventure. With more usable space, superior stability in any condition, ingenious storage and an Audio System to amplify your next adventure, life onboard has completely changed. Whether you're out exploring, discovering new locations or just hanging out, these revolutionary new models turn the idea of a personal watercraft, into a personal adventure-craft. Available on the Sea-Doo RXT, GTX LIMITED and WAKE PRO.

LIVING ROOM ONBOARD CONFIGURABLE. COMFORTABLE. GROUNDBREAKING.

With comfy, modular 3-Up seating, and a useful and large swim platform, the new design makes hanging out just as fun as riding around.

Large, flat swim platform to prep for fun or kick back for hours. Modular seating is configurable for hanging out, sunbathing or a face-to-face picnic. Removable rear seat, to create even more space while relaxing.

REVOLUTIONARY STABILITY AT REST. AT SPEED. ALWAYS STEADY.

It's our most stable platform yet. And in rough water, it's the new industry standard for stability. Whether you're parked in a cove or hauling at high speeds, the new Sea-Doo models feel steady and sure—even with three people on board or someone re-boarding.

Redesigned hull for improved stability at high and low speeds, in big or small chop. Lower center of gravity Hull is 1' for improved stability. for improved stability.

Hull is 1" (2.5 cm) wider for improved stability at rest or re-boarding.

Other improvements: LinQ Ski Pylon Quick-Attach System, New 3rd Generation iBR, Easy Reboarding Handle. *USB Port available as an accessory. Standard on GTX Limited model. ** Up to one hour.

INGENIOUS STORAGE USEFUL. ACCESSIBLE. FUNCTIONAL.

All your gear is now within arm's reach. The industry's first direct-access front storage opens by simply raising the handlebar assembly. No standing required. And extra rear storage is now possible with the secure Quick-Attach LinQ System.

Exclusive LinQ System lets you quickly and easily attach a fuel caddy and a bag or cooler.

Large front storage is completely accessible from a seated position.

Glovebox features a waterproof, shockproof phone compartment with USB charger.*

MUSIC ONBOARD INTEGRATED. BLUETOOTH. WATERPROOF.

Ride to the beat of your own drum with the new BRP Audio Premium System. With the swipe of a finger, create the vibe you want with the industry's first manufacturer-installed, truly waterproof, Bluetooth[‡] audio system. You can store your phone in the waterproof, shockproof compartment and even charge it with the USB port.^{*}

Two powerful 50-watt speakers for music clarity, even while riding.

Music will play even after engine is turned off.**

Remote control pad on left speaker to quickly and easily change songs and volume.

PERFORMANCE

ROVENTURE BEYOND TYPICAL BOUNDARIES

Get ready to push the limits of what you can do and where you can go on a watercraft. The all-new ST³ Hull[™], combined with the innovative Ergolock[™] System on RXT models, maximizes control in any condition, making it the new benchmark for rough water performance. And for the thrill of outright acceleration, 60 mph (96 km/h) is just 3.8 seconds away. With available features like the Bluetooth Audio System* and the exclusive LinQ Quick-Attach System for cargo, the new go-anywhere, do-anything performance models can turn a typical joy ride into an epic journey.

IBR THE INDUSTRY'S FIRST AND MOST INTUITIVE ON-WATER BRAKE

Recognized by the U.S. Coast Guard for improving boat safety since 2009 and now in its third generation, the Sea-Doo exclusive iBR (Intelligent Brake and Reverse) system allows you to stop up to 160 feet (48 m) sooner than watercraft not using a brake. With both hands on the handlebars, riders can engage forward, neutral, and reverse for stable, worry-free maneuvering at low speeds. *Based on BRP internal testing.

The narrow, race-inspired seat and deep knee pockets let you lock in and use your legs for better control, reducing upper body fatigue and making you feel like one with the machine.

UTS Leo START STOP

VTS TRIMMED TO PERFECTION

The Variable Trim System (VTS) allows you to easily find the ideal trim for any situation. The addition of the new advanced Launch Control System will automatically adjusts the VTS based on your current speed, to get onto plane immediately.

ITC INTELLIGENT THROTTLE CONTROL ADJUSTS TO DIFFERENT DRIVING MODES

ECO MODE

This exclusive Sea-Doo feature produces up to 46% improved fuel efficiency by automatically determining the most economical power delivery.

CRUISE MODE

Set it and forget it. This activity-specific mode lets you set your speed for cruising, tow sports, navigating no-wake zones and more.

TOURING & SPORT MODES

No matter what your riding style is, you can easily set different throttle responses to match your activity.

SKI MODE

Tow the perfect line, every time. The five different acceleration profiles make it easy for the driver to deliver a smooth launch and maintain a consistent pace, increasing predictability, so boarders can focus on shredding.

POLYTEC SCRATCH AND IMPACT-RESISTANT LIGHTWEIGHT MATERIAL

This innovative and robust material reduces the weight of the watercraft to deliver peak performance and efficiency, and makes it easy to tow with small cars. Plus, the color-in molding is more scratch-resistant than fiberglass.

CLOSED-LOOP COOLING SYSTEM EFFICIENT, COMPACT RELIABILITY

A Sea-Doo exclusive, the Closed-Loop Cooling System (CLSC) uses coolant to keep the engine running at ideal temperatures. Unlike competitors, this technology prevents corrosive saltwater and damaging debris from entering the engine, for increased reliability, longevity and peace of mind. Offered as an expensive upgrade on traditional inboard engines, CLCS comes standard on all Sea-Doo models.

E NGENES WITH UNMATCHED HIGH-PERFORMANCE, SUPERIOR FUEL-EFFICIENCY AND PROVEN RELIABILITY, ROTAX® ENGINES CONTINUE TO SET THE STANDARD IN THE INDUSTRY. EVERY MODEL FEATURES THE INDUSTRY-EXCLUSIVE CLOSED-LOOP COOLING SYSTEM TO KEEP CORROSIVE SALT WATER AND DEBRIS OUT OF YOUR ENGINE FOR ADDED PEACE OF MIND. TO TOP IT OFF. ALL ACE™ SUPERCHARGED ENGINES ARE MAINTENANCE FREE.*

ROTAX 1630 ACE

This pulse-pounding 300-hp** engine boasts the industry's best power-to-weight ratio.*** Supercharged with an external intercooler, the Advanced Combustion Efficiency (ACE) technology delivers high efficiency and amazing acceleration. Case in point, the adrenaline pumping RXP-X goes from 0-60 mph (96 km/h) in just 3.8 seconds.*

*Based on BRP internal testing of 2016 RXP-X 300 in optimal conditions. **Performance number in metric horsepower achieved under optimal testing conditions.***Based on engine power disclosed to EPA in kW (RXT-X 300) and information on manufacturer's website as of publication date.

ROTAX 1500 HO ACE

Equipped with Advanced Combustion Efficiency (ACE) technology and optimized for regular fuel, the 230-hp,** supercharged 1500 HO ACE uses components from our top-of-the-line ROTAX 1630 ACE to provide high performance at a high value with acceleration from 0-60 mph (96 km/h) in just 5.2 seconds* and superior fuel efficiency.

*Based on BRP internal testing of 2016 GTR-X 230 in optimal conditions. **Performance number in metric horsepower achieved under optimal testing conditions.

ROTAX 1503 NA

The most powerful, naturally aspirated Rotax engine on a Sea-Doo offers instant acceleration for instant fun. This engine has been tested for more than a decade and has proven to be incredibly reliable and fuel-efficient.

ROTAX 1503

This engine continues to be a benchmark for reliability. performance and fuel economy, returning proven power, low overall weight, and ease of maintenance.

ROTAX 900 HO ACE

The most compact and lightweight engine on the market today. The Rotax 900 HO ACE incorporates snappy acceleration, impressive fuel economy and an excellent power-to-weight ratio with a top speed of close to 50 mph (80 km/h).

ROTAX 900 ACE

The most fuel-efficient, compact and lightweight engine on the market today. The Rotax 900 ACE features a great power-to-weight ratio with a top speed of 41 mph (66 km/h).

**Performance number in metric horsepower achieved under optimal testing conditions.

***Based on engine power disclosed to EPA in kW (RXT-X 300) and information on manufacturer's website as of publication date.

XPS oils are developed for the best performance and longevity. They're the only oils developed and tested with BRP power train engineers to match the unique needs of our Rotax engines.

‡ Inspect supercharger every 200 hours when the vehicle is used in intense conditions such as off-shore riding, continuous operation at wide open throttle, etc.

NEW ST³ HULL STABLE + PREDICTABLE

Whether you're at high speeds pounding rough offshore waters, at rest hanging out in a cove or you're simply boarding from the side, the wider hull offers industryleading stability thanks to a lower center of gravity and improved hull design.

T³ HULL Performance + Precision

Ready, set, race. A deep V-shaped hull—the favorite of our Sea-Doo X-Team racers—allows unmatched control and precision for the sharpest turns and unrivaled handling. (RXP-X 300 only)

GTI HULL Forgiving + Nimble

This classic, responsive, moderate V-shaped hull is now crafted in both Fiberglass or Polytec for lighter weight, and increased strength to return an enjoyable ride in variable water conditions.

SPARK HULL Light + Easy to handle

Light on weight, heavy on fun. The flatter V-shaped hull makes riding fun and easy in flatter water and small chop. And makes whipping through rougher conditions even more thrilling.

DISCOVER THE SEA-DOO DIFFERENCE.

We've accomplished a lot in the last 50 years. And we're just getting started.

SEN/10

Exclusive on-water braking, Closed-Loop Cooling, LinQ Quick-Attach System and other technologies are designed to push boundaries and make the experience safe, easy and enjoyable.

With the lowest entry level price in the industry—20% less than the competition^{**}—fun on the water is more accessible than ever.

Some Sea-Doo models boast close to 30% better fuel efficiency than the closest competitor.***

*Based on industry data and BRP estimates.**Source: Manufacturers' website. Price may vary according to product specification.***Based on BRP internal testing and information on manufacturers' website. ****Based on BRP internal testing of 2016 RXP-X 300.

INGENIOUS STORAGE

Innovative storage solutions across all of our models, like the new LinQ System for quickly attaching gear and the new Front Storage accessible from a seated position—an industry first.

0-60 MPH (96 KM/H) IN 3.8 SEC****

Leading the industry in the most exhilarating and heart-pounding ride.

U.S. COAST GUARD RECOGNIZED

Sea-Doo has numerous design awards to go along with the acknowledgement by the U.S. Coast Guard for improving boating safety since 2009.

SELLOO

Race inspired ergonomics and hull design have led the RXP-X to 6 world titles. Our performance machines have the edge and all of our models share winning DNA.

Live the Sea-Doo lifestyle on and off the water. The innovative Sea-Doo riding gear and accessories are the perfect way to make great days even better. In 2018, discover four new Sea-Doo LinQ accessories that allow you to go beyond the typical boundaries. GET ALL THE DETAILS AT YOUR LOCAL DEALER OR ONLINE AT SEA-DOO.COM.

Gear up for Adventure

> Some models, equipment and accessories shown may not be available in your country. Some models may depict optional accessories. Always consult an authorized Sea-Doo dealer when selecting a watercraft for your particular needs.

FAST. EASY. SECURE.

Introducing a game-changer. The Quick-Attach Rear Cargo LinQ System on our new Sea-Doo platform. Now, securely attach cargo or ski pylon in seconds and without tools, redefining what is possible with a watercraft. Because when you can pack more, play more, ride farther and keep food and drink cold and fresh, you no longer just go on rides. You go on adventures.

SENADD.

NEW LinQ BAG

The semi-rigid expandable bag stores 21 liters (5.5 US gal), can stack on top of the fuel caddy and holds an entire adventure inside.

NEW LinQ FUEL CADDY

The easy-to-pour caddy can hold 15 liters (4 US gal) of fuel to explore more, and the LinQ Bag can stack on top to carry more.

NEW LinQ Cooler Rigid, durable and weather-resistant, the cooler keeps 16-liters (4.2 US gal) fresh and cold, and acts as a table between reconfigured seats for <u>on-water picnics</u>.

NEW LinQ SKI PYLON With built-in grab handles for the spotter, the high-rise pylon keeps the rope out of the water and keeps the watersports going.

STORAGE BIN ORGANIZERS Perfect for safely storing and organizing smaller and bigger items.

SEA-DOO LIFE JACKETS

No matter your riding style, Sea-Doo has you covered. Choose from three categories of life jackets to suit your needs. From light and versatily Nylon to comfy Neoprene to the best of both world Ecoprene.

RIDING GEAR

Look good and feel safe. Neoprene wetsuits and shorts for on-water protection, or water-resistant Element Riding Suits for cool-weather comfort, on and off the water.

SEA-DOO TRAILERS

Thoughtfully designed for Sea-Doo watercraft with unique patented features, Sea-Doo Trailers make loading and unloading a snap. Easy to use, lightweight and nimble with optimal hull support and marine jack.

DOCKING ESSENTIALS

Whether you are cruising into a marina or have an unscheduled stop to make, our easy-to-use docking accessories, such as Snap-in Fenders, Speed Ties and Anchors, ensure your watercraft remains protected during docking and while it's moored.
